

# THE NOT-ITS!

## BATH

The water is so hot. It's making my feet red  
Can you turn up the cold so I can get clean for school?  
It's really filling up. The bubbles are a mountain  
Got my snorkel and mask at home in my own private pool

Taking a bath  
I'm in the bath  
Taking a bath

The water's cooling off I'm playing with my bath toys  
I'm splashing around and pretending that I'm lost at sea.  
My mom just pulled the plug she's rinsing off the soap suds  
I don't wanna get out, cuz this bath is where I want to be.
