

# **THE NOT-ITS!**

## **SHADOWS**

**I think someone's following me  
Maybe I'm crazy cuz I can't see  
Anyone at all  
When I look around**

**Because shadows can hide  
And they don't make a sound**

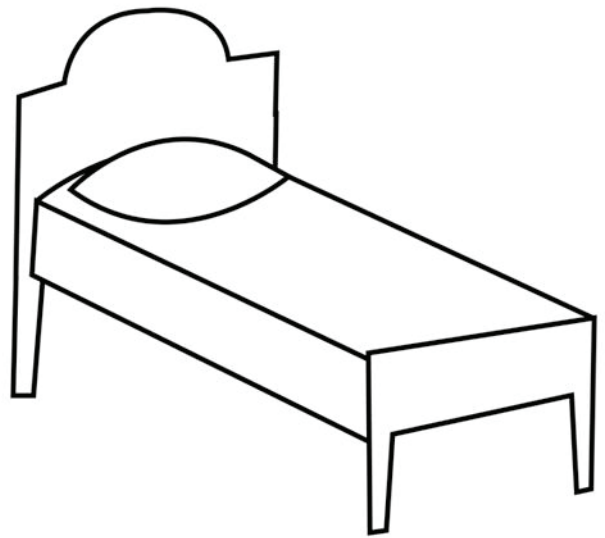

**A sunny day is a shadow's best friend  
He'll follow you until the day's end  
And when you look  
He's nowhere to be found**

**Because shadows can hide  
And they don't make a sound**

**Shadows come out  
You know that they will find you  
Come on, come out  
They stand there right behind you**

**Sometimes at night when I'm lying in bed  
Peek out my eyes, covers over my head  
My baby doll becomes an angry dinosaur  
Because shadows possess the power to transform**

**Shadows come out  
You know that they will find you  
Come on, come out  
They stand there right behind you**
